

MINI RING TEST – LOGISTICS CALL FOR TENDER

1. TIMING

August – December 2013; timing for individual shipments depending on the testing time in each laboratory

2. LOCATION, ROUTES and CONTENT

There will be 2 x 8kg Washing machines to be transported between UniBonn and below specified laboratories. Each model starts from UniBonn, goes to 1st laboratory, comes back to the UniBonn, goes to 2nd laboratory and so on.... The time spent by the model in each laboratory will depend on the exact testing timing, so the exact dates for shipment will be agreed on the ad hoc basis. The project will provide special, certified boxes for safe transportation of washing machines.
